2. A motion was made to approve a request from the College of Management for a new course. The motion was seconded and approved.

**NEW COURSE:**

MGT 4043: Advanced Financial Reporting 3-0-3

This course will be jointly listed with MGT 6043. The prerequisite for MGT 4043 will be MGT 4026.

3. A motion was made to approve a request from the School of Economics for a degree modification. The motion was seconded and approved.

**DEGREE MODIFICATION:**

Bachelor of Science in Economics

- The School of Economics requests approval for the requirement that a student should obtain a grade of C or higher for Economics courses that are required by number and Economics courses that count as electives towards the Economics degree.

The School of Economics has historically required students to obtain a grade of C or higher in Economics classes in order to count these classes towards the degree in Economics, EIA, and GEML. Despite an intensive search, there was no trace of the official IUCC approval requiring a grade of C or above for classes in the major to count towards the Economics degrees. Although the practice has long been to require a grade of C or higher, official documentation was not found to document the change which would have gone from the School to the IUCC. Therefore, this request is being made so that the official *Catalog* can be updated so to reflect this requirement.

The Economic Policy Committee approved the continuation of the practice of requiring a grade of C or higher for a major-related class to count towards the Economics, EIA, and GEML degrees. The official change will be reflected in the next edition of the official *Catalog*.

## Major Requirements

4. A motion was made to approve a request from the School of Public Policy for new courses, a course deactivation, a minor modification, and a certificate modification. The motion was seconded and approved. Also prerequisite changes were presented as an informational item.

9. A motion was made to approve a request from the Registrar’s Office for a list of courses to be used as fulfilling the Ethics requirement. After a discussion of the list, the motion was tabled. The list will be reviewed and put back on the Agenda for the next Academic Matters meeting.

## **Administrative Updates**

1. A request from the School of History, Technology, and Society for two new courses was recently approved. At the same time, the School proposed a change to its degree requirements. There was some confusion on the new course proposal forms for HTS 3065 and HTS 3046 as to whether these courses were “required” or “elective”. The confusion arose due to the timing of the review for the new courses which occurred prior to the degree modifications. The courses should have been marked “required” on the NCP forms because they are on a list of choices for the major. Since they will exist in a list of choices, they are not electives and should have been marked as required. The Registrar’s Office has made this notation to the NCP forms.
2. ARCH 4107: Introduction to Historic Preservation was approved by the IUCC at the Tuesday, March 9, 2010 meeting. At that time, there was discussion about whether it would carry the Social Science attribute. The course was approved with the decision about Social Science to follow after more discussion. The follow-up discussion occurred and the course was approved to carry Social Science credit and has been so noted in the data base. It was recently discovered that the follow-up to code the course properly had not yet occurred.

## **Student Petitions**

1. A motion was made to approve a written appeal for late withdrawal from the Summer 2010 term. The motion was seconded and approved.

Adjourned,

Reta Pikowsky
